

Employment Bulletin Board

Where job seekers can market their skills and access information about employment opportunities

Job Seeker Registration

If you are currently seeking employment with the state, or a state employee affected by layoff and looking for a job with a state agency, consider using this site as another way to market your skills.

To help us assist you in your search for employment, you can submit information about yourself to the Resource and Assistance Center using our on-line **Job Seeker Registration**.

The Registration will ask you for:

- Your full name, address, phone number and optional e-mail address so we can contact you
- Employment history, skills and abilities
- Job titles/positions you would like to be considered for in a state agency

You may also stop by the Resource and Assistance Center to bring us this information in person.

Why should I submit the Job Seeker Registration?

Submitting the Registration will allow Division of Personnel staff to learn of your interest in employment with a state agency. An analyst will review the information you submit and place it with any information, or job application you may have recently sent to us in order to help you in your job search. The analyst will make sure that all the pertinent information we need to help you has been received, and contact you if more information is needed.

What else do I need to know?

Submitting the Job Seeker Registration does not replace the need to submit an official (Merit) Application for Employment to the Division of Personnel.

Your decision to submit information to the Resource and Assistance Center is solely for the purpose of assisting you in your search for employment. It is not a guarantee of a job.

Current Job Vacancies

If you would like to learn about current job vacancies in state agencies, please use the following links:

Vacant Positions
